| <ul style="list-style-type: none"><li>Involved working remotely on a website for an corporation.</li><li>Front-End Web Designer, I contributed to creating visually appealing and intuitive websites.</li><li>Pune-Based firm, Worked with UI/UX and modern frameworks to enhance user experience.</li></ul>  |                                   |
| <b>Nirloba IT PVT LTD</b>                                                                                                                                                                                                                                                                                     | <i>27 January-14February 2026</i> |
| <ul style="list-style-type: none"><li>Internship Training program Through OFFLINE in the field of <b>MACHINE LEARNING</b>.</li><li>Demonstrated exemplary professional traits and effectively executed tasks, particularly in the project titled "BITCOIN PRICE PREDICTION USING MACHINE LEARNING".</li></ul> |                                   |

## Projects

---

### Ai - Product recommendation chatbot

- Developed an intelligent electronics recommendation chatbot integrating Claude AI (NLP)
- Engineered an automated n8n workflow pipeline with parallel API calls, real-time price comparison, and budget detection — reducing product research time from hours to seconds.

### Counting People in a Public Area Using a Camera Feed

- Developed a real-time people counting system using YOLO-based object detection on live camera/video feeds.
- Integrated DeepSORT tracking to uniquely track individuals and avoid double counting.

## Certificates

---

### Sairam - Generative AI (HCL GUVI)

- Learned fundamentals of LLMs, prompt engineering, and AI workflows.

### Introduction to Cybersecurity (Cisco)

- Gained knowledge of network security, malware, phishing, and cyber attacks.
- Understood basic security practices for systems and data protection.

### Machine Learning (IBM Skills Build)

- Learned the basics of ML, data Management, as well as their practical applications.

## Technologies

---

**Languages:** Python, Java, HTML, CSS, Mysql

**Technologies:** Machine Learning , Web Development , Cybersecurity
